<b>XCAL20</b>	Green Magic F1	£7.00 / 500\$	£11.50 / 1000\$	£45.00 / 5TH\$	-

Early variety maturing in 60 – 65 days from transplanting. Green Magic F1 produces medium sized heads of 350 – 450g (up to 1lb). The heads are an attractive green colour with tight beads and smooth dome. Green magic F1 shows wide regional adaptability together with good resistance to white rust and hollow stem. Sow February to April for harvest June to August or for over winter propagation sow September for harvest May to June in 216 cells or trays of a similar size. Green Magic F1 has a fantastic flavour and once the main head has been harvested will usually be followed by a crop of delicious side shoots. Freezes well.

---------------	----------	---------------	-----------------	----------------	------------------

*A very winter hardy variety with good sized creamy white curds for April harvest. A vigorous variety which produces good flavoured heads.*

<b>XCAU23</b>	Patriot	£5.00 / 250\$	£9.00 / 500\$	£15.00 / 1000\$	£60.00 / 5TH\$
---------------	---------	---------------	---------------	-----------------	----------------

<b>XCAU27</b>	Peron	£5.00 / 250\$	£9.00 / 500\$	£15.00 / 1000\$	£60.00 / 5TH\$
---------------	-------	---------------	---------------	-----------------	----------------

<b>XCAU47</b>	Miramonte RZ F1	£6.00 / 100\$	£18.00 / 500\$	£30.00 / 1000\$	£140.00 / 5TH\$
---------------	-----------------	---------------	----------------	-----------------	-----------------

*Miramonte RZ F1 is a first early cauliflower for harvesting mid May to the beginning of June (70-75 days) from transplanting. The plant is vigorous and produces good shaped, dense heads with well covered delectable white curds. Miramonte RZ has a high resistance to fusarium.*

<b>XCAU08</b>	Frebo RZ F1	£6.00 / 100\$	£18.00 / 500\$	£30.00 / 1000\$	£140.00 / 5TH\$
---------------	-------------	---------------	----------------	-----------------	-----------------

*Frebo RZ is a first early cauliflower for harvesting from mid-May to mid-June. It is 6 days earlier than Adelanto RZ. The plant is vigorous and the wrapper leaves cover the curd well. The head is dense and produces a white curd with a good shape. Growing days vary from 70-75, producing a vigorous plant habit.*

<b>XCAU16</b>	Barcelona F1	£6.00 / 250\$	£11.00 / 500\$	£18.00 / 1000\$	£85.00 / 5TH\$
---------------	--------------	---------------	----------------	-----------------	----------------

*A summer cauliflower for October and January to mid March sowing. Heavy solid white curds of exceptional quality with good leaf production.*

<b>XCAU04</b>	Adelanto RZ F1	£6.00 / 100\$	£18.00 / 500\$	£30.00 / 1000\$	£140.00 / 5TH\$
---------------	----------------	---------------	----------------	-----------------	-----------------

<b>XCAU17</b>	Helsinki F1	£6.00 / 250\$	£11.00 / 500\$	£18.00 / 1000\$	£85.00 / 5TH\$

<b>XCAU91</b>	<b>ORGANIC Medaillon F1</b>	<b>£12.00 / 250\$</b>	<b>£22.00 / 500\$</b>	<b>£40.00 / 1000\$</b>	-
---------------	-----------------------------	-----------------------	-----------------------	------------------------	---

<b>XCAU89</b>	<b>ORGANIC Chester F1</b>	<b>£7.00 / 100\$</b>	<b>£12.00 / 250\$</b>	<b>£22.00 / 500\$</b>	<b>£40.00 / 1000\$</b>
---------------	---------------------------	----------------------	-----------------------	-----------------------	------------------------

*A vigorous overwintering cauliflower, for late April production. It produces lovely solid white well covered curds.*

#### **CAULIFLOWER Coloured Varieties**

<b>XCAU10</b>	Violet Queen F1	£7.00 / 250\$	£12.00 / 500\$	£22.00 / 1000\$	-
---------------	-----------------	---------------	----------------	-----------------	---

<b>XCAU14</b>	Graffiti F1	£9.00 / 50\$	£16.00 / 100\$	£60.00 / 500\$	£100.00 / 1000\$
---------------	-------------	--------------	----------------	----------------	------------------

*Graffiti F1 is a purple cauliflower for harvesting July to October (74-80 days) from transplanting. It produces large, uniform, vigorous plants and has an open plant habit which should be encouraged as the exposure of the curd to light intensifies the colour to a vivid deep purple. Graffiti is not only eye catching, but delicious when eaten and it retains most of its colour when cooked.*

<b>XCAU42</b>	Sunset F1 (Orange)	£9.50 / 100\$	£24.00 / 250\$	£45.00 / 500\$	£80.00 / 1000\$
---------------	--------------------	---------------	----------------	----------------	-----------------

<i>Powdery mildew resistant variety well suited to cropping in cold glass or polytunnels.</i>					

<b>XCUC33</b>	Zeina F1 <i>Mini cucumber well suited to short term crops &amp; unheated production.</i>	£5.50 / 10\$	£40.00 / 100\$	£320.00 / 1000\$	-
<b>XCUC78</b>	<b>ORGANIC Proloog RZ F1</b>	£9.00 / 10\$	£40.00 / 50\$	£70.00 / 100\$	£320.00 / 500\$
<b>XCUC94</b>	<b>ORGANIC Styx F1</b> <i>This all female variety produces straight fruit of high quality. It has an open plant habit.</i>	£6.00 / 10\$	£20.00 / 50\$	£36.00 / 100\$	-
<b>XCUC82</b>	<b>ORGANIC Aviance RZ F1 - All Female</b>	£7.00 / 10\$	£32.00 / 50\$	£60.00 / 100\$	£290.00 / 500\$
<b>XCUC81</b>	<b>ORGANIC Cumlaude RZ F1 - All Female</b>	£7.00 / 10\$	£32.00 / 50\$	£60.00 / 100\$	£290.00 / 500\$
<b>XCUC77</b>	<b>ORGANIC Manglar RZ F1 - All Female</b> <i>Manglar RZ is a totally new type of cucumber from the Rijk Zwann 'Blue Leaf' range. They produce a darker coloured plant and fruit and do not show yellowing of the leaves as the plant matures. They have really taken off in Spain and are now being introduced into Northern Europe. The plants are robust, grow well under cold conditions and are strong against stress. The fruit is slightly ribbed with a small neck and good shelflife. 1-2 fruits are produced per node; can be an alternative to Cumlaude. Plant out April to August. Manglar RZ has high resistance to blight, target spot, scab, gummosis and powdery mildew, plus it has intermediate resistance to cucumber vein yellowing ipomovirus.</i>	£9.00 / 10\$	£40.00 / 50\$	£70.00 / 100\$	£320.00 / 500\$
<b>XCUC80</b>	<b>ORGANIC Eminentia RZ F1 - All Female</b> <i>Eminentia RZ is strong-growing with good endurance. It has an open plant habit with good lateral development. High production levels (can be 5% more than Aviance RZ). A single-fruited variety with higher mildew resistance than Aviance RZ. Very good fruit setting in midsummer, small flowers that quickly set. Eminentia RZ has very good quality fruit that is slightly ribbed, with a good round end, a short handle and a good shelf life.</i>	£9.00 / 10\$	£40.00 / 50\$	£70.00 / 100\$	£320.00 / 500\$
<b>XCUC79</b>	<b>ORGANIC Khassib RZ F1 - All Female</b> <i>This variety has resistance to powdery mildew, and is suitable for spring and summer cultures. It has good vigour and an open plant habit. It produces dark green, slightly ribbed fruit with a length of 18-20cm (7-8"). The fruits have a good shelf life and a very good flavour.</i>	£9.00 / 10\$	£40.00 / 50\$	£75.00 / 100\$	£280.00 / 500\$

<b>XTOM011</b>	<b>Borsalina F1</b>					
	(Red, Coeur de Boeuf)	£ 7.50 / 25\$	£28.00 / 100\$	£50.00 / 250\$	£85.00 / 500\$	
<b>XTOM014</b>	<b>Rugantino RZ F1</b>					
	(Red, Coeur de Boeuf)	£8.00 / 25\$	£30.00 / 100\$	£60.00 / 250\$	£100.00 / 500\$	
	<i>Rugantino RZ is a 'Coeur de Boeuf' type tomato. The plants are compact and the fruit sets easily. Average fruit weight is 125-150g (4-5 oz). Very good taste with excellent firm fruit. Rugantino RZ shows high resistance to TMV, fulvia fulva, verticillium, grey leaf spot, crown and root rot and fusarium oxysporum f.sp. lycopersici .</i>					
<b>XTOM015</b>	<b>Montenegro RZ F1</b>					
	(Red & Green, Beefsteak)	£9.00 / 25\$	£30.00 / 100\$	£65.00 / 250\$	£110.00 / 500\$	
	<i>Montenegro RZ is a green back beef tomato. The fruits are ripe when the skin is green and internally it turns red. Average fruit weight is 200-250g (6 ½-8 oz). Very good taste with excellent firm fruit. Strong against cracking. Montenegro RZ shows high resistance to TMV, tomato yellow leaf curl begomovirus, fulvia fulva, wilt, grey leaf spot, verticillium and intermediate resistance to three different strains of root-knot nematode.</i>					
<b>XTOM12</b>	<b>Rotem RZ F1 (Red)</b>	-	£58.00 / 100\$	£250.00 / 500\$	£480.00 / 1000\$

## Did you know that Edwin Tucker and Sons Ltd are also agricultural merchants??

We offer everything from packets of seeds for the home gardeners, to lawn seed, whether you want 1Kg or 25Kg bags for a larger area. We also supply potatoes in sacks or by the tonne, please email us on [seeds@edwintucker.com](mailto:seeds@edwintucker.com) or call us on **01364 652233** for more information, alternatively fill in the potato quote form at the back of this catalogue for your personal quotation.

We supply farmers in Devon, the UK and throughout Europe with agricultural seeds, our vast range includes over 30 grass mixtures for cutting and or grazing, specifically tailored to sheep, cows or horses (low sugar option available), short term and longer term leys and most are available as organic mixtures as well. More importantly we know that many growers and farmers have very specific and individual needs depending on their requirements and our grass expert who has over 35 years of experience would be happy to work with you to create your specialised mixture.

Also available from Edwin Tucker & Sons Ltd are;

**Environmental Stewardship mixes \*\* Wildflower mixes**

**\*\* Wild bird seed mixes \*\* Game cover crops and mixes**

**\*\* Roots crops such as Fodder beet, Mangel, Turnip,**

**Stubble Turnip, Swede, Kale, Rape, Mustard, Fodder radish and fodder mixes.**

Please email us on [seeds@edwintucker.com](mailto:seeds@edwintucker.com)  
or call us on **01364 652233** for  
more information.

## SUPPLEMENTARY TERMS OF BUSINESS

All prices in the garden catalogue are in pounds sterling, and are NET for payment with order and include VAT where applicable; prices in the growers catalogue are exclusive of VAT, with the exception of the p&p, VAT should be added where applicable (on flower seeds). VAT will be shown separately on your delivery note or invoice. VAT where quoted is at the current rate of 20% and we reserve the right to change this if necessary. We regret that we are unable to accept payment in EUROS at this present time. Prices apply until 30/9/2012 or as long as stocks last. We accept payment on MasterCard & Visa credit cards, JCB credit cards (online only) and also Visa and Electron debit cards, in addition to cheques and postal orders; you MUST include a landline telephone number if paying by card. Please note we can only accept BACS payments by prior arrangement and there is an additional fee of £2.00 payable to Tuckers for using this service or £9.00 if payment originates from outside the UK.

All overpayments and underpayments will be notified on delivery notes. All overpayments will be held as credit, if you require a refund, please notify us. Our company policy is that underpayments are not held over; this enables us to streamline processing and allows us to dispatch orders more efficiently and keep administration costs to a minimum. We will simply deduct items to the value of any underpayment from your order. If you need to reorder any items, normal postage rates will apply, we hope this will not cause you any inconvenience.

For account customers the credit charge may be deducted for payment by the 20th of the month following the date of delivery, unless otherwise stated on invoice; thereafter the total invoice will become due. A minimum spend of £50 applies to all account transactions. Once an account becomes overdue, no further orders can be added to that account until the balance is paid. Interest at 2% per month of the balance will be added at the end of the third month. We reserve the right to disallow deductions made outside of our Terms of Business, whether or not payment of a part of the debt has been accepted. We reserve the right to pass any outstanding account to our solicitors or other third party, as and when it is deemed appropriate, in which event a £60 administrative charge shall become immediately payable, together with all legal costs, as they are incurred. The customer's obligations in respect of payment shall not be varied or altered in any way by the fact of submission of a complaint. Until we receive payment in full, the product sold or supplied by us shall remain our property, but the risk therein and all liability to third parties in respect thereof shall pass to the buyer on delivery. In the event of the buyer committing any act of bankruptcy, having a receiver appointed or, being a company, going into liquidation, then the buyer agrees that we may enter upon the buyers premises where products sold or supplied may be, and recover the same. We reserve the right to close an account if the minimum spend of £1000.00 per year is not met.

You have the right to change your mind, with the exception of perishable goods. Perishable goods are as follows: artichokes, asparagus, blackcurrants, chinese artichokes, comfrey, garlics, gooseberries, horseradish, mushrooms, onion sets, potatoes, raspberries, redcurrants, shallots, strawberries & whitecurrants. If you do change your mind you must send notification in writing (email, letter or fax) within five working days of receipt of the goods, of your intention to return them. The responsibility for these goods remains yours as is the responsibility to return them to us and you must ensure that they reach us in a good condition. We recommend that you should obtain a proof of posting. If you would like us to arrange collection of heavy goods, please contact the office, this service will be charged. If a perishable item is reserved for you at your request and you change your mind before we dispatch them, we will do our utmost to sell them elsewhere, however if this is not possible, we reserve the right to charge for any losses incurred.

We will endeavour to deliver all goods on the delivery date required, provided goods ordered are available, but we cannot guarantee delivery within a specified time period and/or on a specified date. When you receive your parcel from us, please open it immediately and check off the items contained in the parcel against the enclosed delivery note. If any goods are missing or damaged please let us know within five working days and we will replace the goods (if possible) or refund you in full for them. You MUST keep any damaged goods for our inspection until your complaint has been dealt with, and you must mark the couriers consignment note with "received damaged" when signing for parcel. We also recommend that you keep all packet labels until crop has been harvested; all labels show reference numbers and in case of complaint or query, we will need these reference numbers to trace batches back to source. No complaint in respect of the performance of goods shall be considered unless the customer is able to establish to our satisfaction that the seed grown and alleged to have performed unsatisfactorily was in fact supplied by us, sown on suitably prepared ground, treated carefully and correctly throughout and subject only to such conditions as were likely to produce a favourable crop. Any failure by the customer to comply with any aspect of the complaint procedure, as set out here, shall preclude the customer from making any claim in respect of the goods against us. We do not guarantee, represent or offer any warranty whatsoever in respect of the following: that the goods will necessarily be fit for the customer's intended purpose, the customer shall satisfy themselves that the goods ordered are of a variety and performance satisfactory for their requirements and shall be deemed to have ordered the same at their own risk; that the goods will produce the results indicated by any germination figures, general guidance, tests, quality data or other literature supplied by us in respect of those goods, the customer acknowledging that results will depend on a variety of factors including location, cultivation measures and climatic circumstances; that use of the goods does not infringe any intellectual property rights of third parties. We will endeavour to deliver goods that are free from any latent defects but cannot guarantee or warrant in any way that such will be the case and it is not a condition of sale that the goods will be free from any latent defect. If, in our opinion a complaint by the customer is justified, we will, at our option, make good the damage to the goods, provide a refund or replace the goods, provided always that the customer fully cooperates with us and any involved third parties and that the customer takes all possible steps to mitigate their losses. If we are liable for any damage incurred by the customer, our liability shall be limited to the amount of the invoice (excluding VAT) charged to the customer in respect of the delivery concerned. We shall not in any circumstances be liable for any indirect damage suffered by the customer or any third party, including consequential damage or loss of profit. Any potential claim for compensation or complaint based on these terms and conditions shall expire in the event that no claim has been issued in writing against us within 12 months of the delivery of the goods.

Details of analysis are stated on the bag or label or accompanying delivery note of mixed agricultural seed, feeding stuffs and fertilizer. Details of analysis, non-warranty, plant breeder's royalties and other matters affecting these items are available on request. All products are sold on the understanding that they are used strictly in accordance with the makers recommendations as printed on the containers and / or other documents of advice, we accept no responsibility for any misuse of these commodities.

All potato seed is subject to the condition of sale of the National Association of Seed Potato Merchants. NO warranty is given as to the germination or crop result and we can not be held responsible for any dry rot or disease which may develop after delivery unless a complaint is made, in writing and received by us within five days of delivery. Full BPTA conditions available on request and are listed on our website. Whilst we shall make every effort to maintain quoted prices, ALL quotations are given and orders accepted with the proviso that the relevant goods will be available from the manufacturer / supplier at the time for delivery and must be subject to the price ruling at that time if prime costs have risen. We accept no responsibility for non-delivery or increased prices where these are beyond our control.

## PRIVACY POLICY

We may use the information you submit to us for administration, marketing and profiling your purchasing preferences. We may disclose your information to our service providers and agents for these purposes, having thoroughly ensured that they are reputable and secure. We may keep your information for a reasonable period to contact you about our services. We may also use cookies on our website which is software which profiles your use of this website. To disable cookies, please adjust the user settings on your computer's internet browser software. We may share your information with organisations that are our business partners but we DO NOT sell our mailing lists or make available to anyone other than our business partners, unless legally required to do so. They or we may contact you by mail, telephone, fax or e-mail to let you know about any goods, services or promotions, which may be of interest to you. Please feel free to contact us to ensure that we remove you from our mailing lists if you do not wish to receive such information from our business partners or us but remember that this may preclude you from receiving any of our special offers or promotions. By submitting a form via our website, you consent to us processing your sensitive personal data, you also consent to us transferring your information to countries which do not provide the same level of data protection as the UK if necessary for the above purposes. You have a right to ask for a copy of your information (for which we charge a small fee and the request must be received in writing) and to correct any inaccuracies. To make sure we follow your instructions correctly and to improve our service to you through training of our staff, we may record telephone calls. When you give us information about another person you confirm that they have appointed you to act for them, to consent to the processing of their personal data, including sensitive personal data and to the transfer of their information abroad and to receive on their behalf any data protection notice.

## FILBIO® Insect Screens

Smooth • Lightweight • Permeable

FILBIO® is a very smooth and lightweight net to protect your crops, whether outside or inside greenhouses providing a barrier against tomato mildew, white fly, cabbage fly, thrips, carrot fly, moths etc. It can be used with most crops but is especially suitable for: Aubergines, Baby Leaf, Carrot, Chicory, Cabbage, Cucumber, Cauliflower, Gherkin, Courgette, Garlic, Lettuce, Melon, Turnip, Parsley, Leek, Radish and Tomato.

### THE BENEFITS

**ECOLOGICAL** Limits the use of pesticides reducing your expenses and helping the environment.

**LONGEVITY & COST SAVING** Can be used in the UK on average of 6 times per year for 3 years.

**DIRECT COVER** Due to its lightweight (17g/m<sup>2</sup>) the product can be laid directly over crops without support allowing the crop to grow without constraint.

**AIR & WATER PERMEABILITY** Knitted construction gives better air and water permeability encouraging quicker and healthier plant growth. Virtually no mildew problems.

**TRANSPARENCY** Very low shading effect (7%)

**PROTECTION** As well as a barrier to insects it also provides general protection against wind, birds, temperature variations, and softens the effect of heavy rain and hail.

MISC589 Filbio 317 insect screen 2.2m x 250m roll (550m<sup>2</sup>)

@ £316.80 delivery direct from supplier.

MISC590 Filbio 317 insect screen 2.2m x 35m (77m<sup>2</sup>) @ £64.95

THE ABOVE PRICES INCLUDE VAT & carriage to Zone 2

whether you are a local market gardener or supply super markets ... every drop counts!

Increase the yield and quality of your crops thru' accurate irrigation.

Evenproducts offer bespoke, affordable solutions to suit you.

- \*\* Sprinkler or drip irrigation
- \*\* Pumping, pipework and filtration
- \*\* Auto or manual control
- \*\* Rainwater harvesting and storage

Please contact Edwin Tucker & Sons to discuss your specifications and to receive a free quotation.

As featured on BBC News, BBC World News, Radio Scotland, Radio 4 - Changing Places & Costing The Earth, Sky News, Landward and Beechgrove Garden. As used to grow bumper, mineral rich crops at the SEER Centre

MISC587 20kg bag @ £16.50 each including VAT & carriage to Zone 2

MISC587 5 x 20kg bags @ £15.50 each including VAT & carriage to Zone 2

MISC588 1 tonne bags @ £198.00 including VAT & carriage whole of Mainland UK.

ORGANICALLY APPROVED

## REMINERALISE SOIL and COMPOST with SEER® Rockdust®

Soil Association Approved Product – Approved for Organic Gardening.

### Rockdust®

SEER Rockdust is 420 million year old volcanic rock, finely crushed to release a wide range of minerals and trace elements. It boosts the organic fertility of soil and compost to grow higher yields, healthier fruit, vegetables, flowers, trees, lush lawns and pastures. Volcanic soils are fertile and productive due to their abundance of minerals and trace elements. It's been 10,000 years since the last ice age when glaciers crushed rocks to create deep mineral-rich fertile soils. Most of our soils are now mineral-deficient, having been depleted over time and eroded by intensive agriculture and weather. Remineralisation with Rockdust mimics the beneficial effects of the glacial cycles and volcanic activity by putting mineral vitality back into the soil, the crops, the food chain, our own and our livestock's diets. Synthetic fertilisers do not feed the microbial "engines of the soil" whilst "Remineralisation with Rockdust" does! The results speak for themselves!

**Rockdust is not an instant fix. It may take several months to improve microbial activity and soil fertility to show beneficial results.**

**Rockdust IMPROVES A CROPS;** Overall Yield Health and Vigour, Flavour and Aroma, Flower Quality, Nutritional Value, Shelf Life, Pest Resistance, Disease Resistance, Worm Population & Drought Resistance.

**Rockdust INCREASES IN COMPOSTS;** Microbial Activity Temperature, Nitrogen Fixing, Composting Speed, Odour Reduction & Compost Fertility.

**ENVIRONMENTAL BENEFITS** of Rockdust: Improves the soil's ability to absorb and utilize atmospheric CO<sub>2</sub> (carbon sequestration), Reduces dependency on synthetic fertilizers, Boosts Nitrogen-fixing bacteria & it increases microbial activity and bio-diversity.

**MIXING:** Rockdust works well with soil conditioners, animal manures and plant foods. Additional lime is not recommended.

**QUALITY CONTROL:** This is a natural product and, as such, moisture content may vary but this will not affect the quality.

**STORAGE & SAFETY ADVICE:** Store in a dry place or under cover if stored outside. Do not apply in windy conditions.

**APPLICATION** Rockdust is a TOP DRESSING that benefits all types and pH of soil and promotes plant growth and vigour. Apply at any time of year and at any stage of plant growth. Sprinkle evenly onto soil from the edge of a spade or trowel. Rake in, or let worms and weather do this for you.

**MINIMUM ANNUAL DOSE:** Apply 0.5kg per square metre - one bag covers up to 40 square metres. This annual dose will also benefit your lawn.

**OPTIMUM ANNUAL DOSE:** Apply 2kg per square metre in first year for an initial boost. Apply 1kg per square metre in subsequent years.

**MAXIMUM DOSE:** Apply 5kg per square metre - one bag covers 4 square metres and achieves an initial boost and the longer lasting beneficial effect for up to 5 years or more, depending on soil conditions and type of crops grown. Apply again when soil fertility decreases.

**APPLICATION to POTTED PLANTS:** Sprinkle 3mm Rockdust onto soil surface. No need to mix, just water your plants as normal OR mix with potting compost prior to sowing or planting. Mix ratio, by volume, of 1 part Rockdust to 4 parts compost (as used at the SEER Centre) or up to 10 parts compost (depending on the plant's nutrient requirements i.e. light or heavy feeder).

**COMPOST ACTIVATOR and ACCELERATOR:** Sprinkle 3 - 5mm of Rockdust onto each 5 inch / 13cm layer of green waste that you build.
